

FM200 Flow Monitor

Multi-Application Flow/No-Flow Monitor

Hazard Monitoring, Anytime, Anywhere.

Maxi-Tronic has the industry leading controls, sensors, service and experience to provide complete hazard monitoring and control systems for your facility.

Maxi-Tronic FM200 Flow/No-Flow Monitors are unique in the industry and are ideal for conveyors, distributors, discharge chutes, spouts, and other material distribution systems.

Maxi-Tronic FM200 Monitors in Action

Monitors movement of almost any solid or liquid.

Sensors are non-invasive and very easy to mount to the outside of the pipe or chute.

FM200 Control:

- ◆ 12VDC and 24/120/240VAC models available
- ◆ Relays: 5A N.O. and N.C. contacts
- ◆ Digital Output: High/Low 5V and RS232 outputs
- ◆ Adjustable Sensitivity: Full adjustment within 3 ranges
- ◆ NEMA 3/4/12 Enclosure: 7.1" x 5.1" x 3.0"
- ◆ LED indicators

Sensor:

- ◆ Ultrasonic technology for precision and reliability
- ◆ Mounting tabs for strap-on or bolt-on installation
- ◆ Pre-wired with 6' of 18AWG 2 conductor cable.
- ◆ Low voltage, 5V 100mA max.
- ◆ Rugged PVC housing, 3" x 1.5" x 1.6"

- Extremely rugged sensor design
- Fast reacting sensing element
- Easy installation and low maintenance

- No moving parts
- Non-invasive sensor mounting
- Low voltage sensor
- Easy calibration and adjustment
