

RotoTrack

Electro-Mechanical Level Sensor

Monitor Your Product, Anytime, Anywhere.

The Maxi-Tronic RotoTrack™ sensor is an extremely rugged, full-featured level sensor that is ideal for all granular, powder, small and coarse bulk product.

RotoTrack sensors are ideal for high and low level sensing of granular and powder product in hopper or flat bottom, round and square bins and silos.

Applicable industries: Grain, Food, Cement, Plastics and others.

RotoTrack™ in action

- Best features in the industry.
- Long Life due to "deactivating motor" design.
- Field Adjustable sensitivity for easy installation.
- Extremely Rugged design for uninterrupted service.
- Integrates with Maxi-Tronic and industry standard displays.
- Install without needing to enter the silo/bin.

NEW: See the new *RadarTrack™* radar sensor for continuous level measurement.

- Easy installation and low maintenance
- Class II, Div 1, Groups E-F-G FM Approved
- Relay output: SPDT
- Standard 120VAC or optional 24VDC
- 2 Year Warranty
- Standard stainless steel shaft and paddle included
- Integral 3/4" conduit entries
- Screw-on cover with locking screw
